

Cubic

- product card

Solid construction, cubic shape, minimalist and modern design are the characteristics of Tarasola Cubic. It is a roofing which combines aesthetics of workmanship and resistance to unfavourable weather conditions such as rainfall, excessive sunshine or even snow, which ensures comfort of use. The canopy comes in two versions: free-standing and wall-mounted, thanks to which it successfully fits into a variety of tastes and space management. What is more, it has a modular character allowing for expansion, which makes it an interesting solution for the HoReCa sector. Each of the modules has a unique cover. The new double-layered roof with taut fabric makes the Terraceola a coherent design, creating a geometric form. It is complemented by full automation, which guarantees efficient and convenient control of elements such as roller blinds, radiant heaters or lighting, which in this model may be placed linearly across the entire roof width.

SPECIFICATION

- The structure is made of extruded powder-coated aluminum.
- Electric motor control included in the price.
- 2 layers of Techprotect roofing material as standard (other fabrics available on request).
- Possibility of powder coating in any RAL colour.
- Available in wall-mounted and free-standing version.
- Option of modular connection.
- Construction's wind resistance up to 120 km/h.
- Possibility of installing a fabric visor.
- Option of additional accessories:
 - lighting - LED spotlights, LED tubes and LED strips in wind beams,
 - glazing,
 - shutters,
 - roller blinds (screeners),
 - infrared heaters,
 - wind, solar and rain sensors.

Infrared heaters

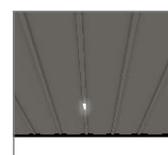

LED lighting - spotlights

LED lighting - LED strip lights (only in additional wind beams)

LED lighting - tubes 1x50 cm

LED lighting - tubes 3x12,5 cm

Roller blinds (screeners)

Glazing

Shutters

SOMFY - mechanical limit switches, compatible with TELECO control panels

Radio motors

SOMFY ALTUS RTS

SOMFY PERGOLA IO

Remote controls RTS

SITUO 1 RTS remote control, single-channel

SITUO 5 RTS remote control, five-channel

SITUO 1 SOLIRIS RTS remote control, single-channel with solar sensor support

SITUO 5 SOLIRIS RTS remote control, five-channel with solar sensor support

TELIS 16 RTS remote control, sixteen-channel

Remote controls IO

SITUO 1 IO remote control, single-channel

SITUO 5 IO remote control, five-channel

NINA IO remote control, for 50 devices

NINA TIMER IO remote control, for 50 devices

Controls TELECO

Radio control unit for 1 motor (no weather sensors option)

Radio control unit for 1 motor, integrated with LED receiver (max. 75 pc LED spotlights)
Optional sensors: wind, rain, temperature, combination of temperature & rain sensors to detect snow

Power supply 150 W

42 channel remote control, black/white

63 channel remote control, black/white

Lighting

LED lighting - spotlights

LED spotlights
Additional control up to 25 spotlights Somfy RTS
Additional control up to 50 spotlights Somfy RTS
Additional control up to 25 spotlights Somfy IO
Additional control up to 50 spotlights Somfy IO

Min. of 8 spotlights per construction, min. 3 LED spotlights on a wind resistant beam.

LED lighting - LED strip lights (only in additional wind beams)

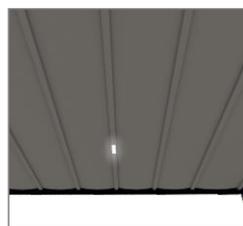

LED strip 8W - White
LED strip RGB 8W
Controller white/RGB TELECO up to 28 lm (max. 4 pc LED strip)
Controller white SOMFY RTS up to 18 lm (max. 4 pc LED strip)
Controller white SOMFY IO up to 18 lm (max. 4 pc LED strip)
Power supply up to 18 lm
Power supply from 18-36 lm

LED lighting - tubes 1x50 cm

LED tube in wind beam
Additional control up to 25 spotlights Somfy RTS
Additional control up to 25 spotlights Somfy IO
Controller white TELECO up to 25 spotlights

Min. 4 LED tubes in the structure.

LED lighting - tubes 3x12,5 cm

LED tube in wind beam
Additional control up to 25 spotlights Somfy RTS
Additional control up to 25 spotlights Somfy IO
Controller white TELECO up to 25 spotlights

Min. 4 LED tubes in the structure, min. 2 LED tubes in wind beam.

Infrared heaters

power

Infrared heater GR1 - controlled by a switch with a LOW GLARE emitter that generates less light, water-tight class IP65, colour: white or black, usually controlled by a wall switch. For external use.

1,5 kW

Infrared heater GR2 IR - a infrared heater with a built-in infrared receiver, remote control and a LOW GLARE emitter that releases less light. Water-tight class IP65, colour white or black, controlled by an infrared remote control (in set). For external use.

1,5 kW

Additional infrared remote control

Radio receivers for infrared heaters GRI

Somfy RTS receiver

Enables operation of the GRI infrared heater with TELIS remote controls in the on/off range. No heat adjustment.

For the single infrared heater max. power 2 kW

Somfy RTS MODULIS Receiver

Gri infrared heater can be operated by TELIS MODULIS (recommended) and TELIS remote controls in the on/off range and smooth regulation of heat intensity from 0% to 100%.

For of 1 to 2 infrared heaters of total power 3 kW

SOMFY IO ON/OFF Receiver for 1 infrared heater 2kW

Enables operation of infrared heater Gri.
No heat adjustment.

For the single infrared heater max. power 2 kW

TELECO ON/OFF Receiver up to 1-2 pcs infrared heater 3kW

Enables operation of infrared heater Gri.
No heat adjustment.

For of 1 to 2 infrared heaters of total power 3 kW
